NEW - Guardian NATURAL GAS ALARM 240volt

GAS alarms are likely to become as essential as the "smoke alarm" in the 21st century. Leaking gas can become a silent killer and if undiscovered can render people unconscious. It can also cause violent explosions.

- Detects leaking gas and sounds an alarm
- Optional function available to automatically shut off gas supply or switch on the exhaust fan.

WAS: \$74.95 PRICE: \$49.95
